

## Homework

Play the game “KenKen” at home. For more detailed instructions, visit <http://www.kenkenpuzzle.com/howto/solve>.

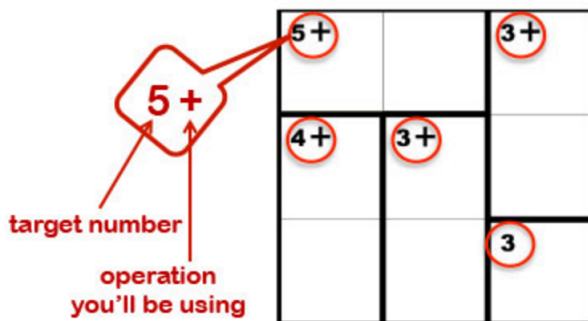

See an example at <http://www.kenkenpuzzle.com/howto/simple>.

### Instructions

1. Fill the whole grid with numbers, with no number repeated in any row or column.

2. For a 3x3 KenKen puzzle, use the numbers 1-3. For a 4x4, use the numbers 1-4, and so on.
3. The numbers in “cages” (heavily outlined boxes) must combine, in any order, to produce the target number using the operation denoted.

Look on the back for the problems!

Fill in the following KenKen puzzles.

<b>3 ×</b>		<b>1 -</b>
<b>1 -</b>	<b>8 +</b>
