

Homework 2: Induction and Geometry

Konstantin Miagkov

April 15, 2018

Problem 1.

A collection of lines splits the plane into multiple regions. Show that it is possible to color each region on black or white so that no two adjacent regions have the same color.

Problem 2.

Kiselev 265, p. 101.

Problem 3.

Kiselev 269, p. 101.
